### Wi-Fi Networks

You will need to connect to a wireless network before you can access the internet or any online services.

#### Connecting to a wireless network

Touch settings

Touch Wi-Fi

Make sure WIFI is ON

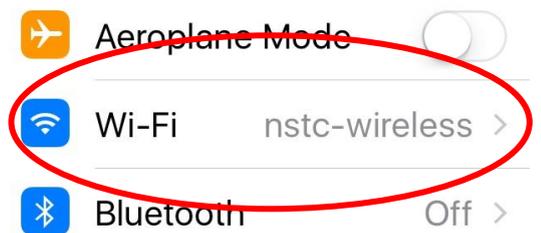

You should be able to see a list of nearby Wireless access points by name.

Simply choose the name of your wireless network and enter your password.

#### Connecting at School

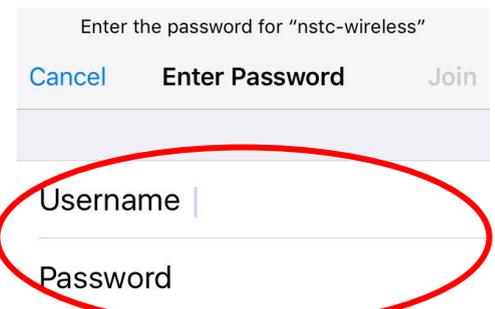

Select the WiFi network **nstc-wireless** to connect to the internet.

#### Username and Password

Type in your school username and password to join the WiFi network. example username = astudent.08

\* **Select TRUST certificate**

#### Additional Settings

Select the ⓘ button next to the WiFi network. Press this to access additional settings

You will need to set the HTTP Proxy as shown below. Please select **Auto**.

#### Renew Lease

HTTP PROXY
